

To: Chair and Members of the Operational Policing Panel
Date: 24th November 2011

Executive & Presenting Officer: Mrs Sarah Wilson, Consultation & Performance Officer

Status : For information

Ward Priorities Report

1. Purpose of the Report

- 1.1 Engaging with the public and seeking the views of our communities is a key activity for Neighbourhood Policing Teams. Local ward priorities are established through public consultation and engagement with partner agencies. This report presents the ward priorities for all of Cleveland's 88 wards.

2. Recommendations

- 2.1 It is recommended that members take cognisance of the ward priorities (see Appendix A) with a view to using the results to assist in setting the local policing priorities for 2012 - 2013. These results should be considered alongside the Force strategic assessments, the Home Secretary's national policing priorities and the results of other forms of public consultation.

3 Reasons

- 3.1 The principles of Neighbourhood Policing were implemented throughout the Cleveland Police area on 1st April 2007.
- 3.2 The Force's approach to Neighbourhood Policing is based on the Chief Constable's ward based model of a named police constable per neighbourhood. In addition, each neighbourhood has a minimum of one PCSO working alongside the constable.
- 3.3 Neighbourhood Policing Teams hold a series of regular meetings with their local communities. These range from structured meetings such as Community Councils,

- 3.4 Each Neighbourhood Policing Team establishes a set of up to three local ward priorities, which are reviewed and updated regularly. Under the original Neighbourhood Policing structure these priorities were to be established solely based on public consultation through ward meetings, but due to low attendance at meetings in many areas, the priorities now reflect both the opinions of the public and officer knowledge of the local area.
- 3.5 Details of the current and previous ward priorities for all 88 Cleveland wards are at Appendix A. By far the most common issue raised is youth anti-social behaviour, predominantly in the form of underage drinking, groups congregating, especially around shops and in open areas such as parks, and rowdy behaviour. Other commonly raised issues are criminal damage and vehicle offences, namely problem parking, usually around schools, and speeding. Off road bikes, litter and dog fouling also feature quite regularly in the priorities.
- 3.6 Recent rises in other theft are reflected in some areas, with shoplifting, lead theft and cycle theft all featuring in some ward priorities.
- 3.7 Whilst the priorities in some areas focus on more serious criminal offences, such as drug dealing and house burglary, they are generally focused on anti-social behaviour and minor crime, as stated in 3.5.
- 3.8 Priorities don't tend to change drastically over time. Often priorities will remain the same over a prolonged period, or when they do change they will have the same focus, i.e. youth anti-social behaviour in a certain area will be replaced by youth anti-social behaviour in a different area.
- 3.9 The concerns raised through the ward priority setting process are broadly similar to those raised through consultation activities undertaken by the Force and Police Authority which were presented to members at the Operational Policing Panel on 29th September 2011.

4 Implications

4.1 Finance

There are no financial implications arising from this report.

4.2 Diversity/Equal Opportunities

Cleveland Police has built targeting of hard to engage groups into its consultation and priority setting process.

4.3 Human Rights Act Implications

There are no human rights act implications arising from this report.

4.4 Sustainability

Engagement activities detailed in this report were delivered within current budgets. Any reduction to the current budgeting levels as a result of spending cuts could jeopardise the Force's ability to deliver similar consultation levels in the future.

4.5 Risk

Failure to take account of community views could result in reduced public confidence in the Force and the Authority and therefore lead to a reduction in engagement with communities.

5 Conclusion

5.1 It is recommended that members take into account the ward priorities set out at Appendix A when setting and approving the local policing priorities for 2012-2013.

5.2 Consider this report along with:

- Cleveland Police Strategic Assessment and Control Strategy
- Home Secretary's national policing priorities
- Results of consultation undertaken centrally by the Force and Police Authority
- Local CSP Community Safety Plans

Jeremy Holderness
Acting Chief Executive
