

**Report of the Chief Executive
to the Chair and Members
Of the Audit and Internal Control Panel
3rd June 2010**

**Presenting Officer: Paul Kirkham Treasurer
Author: Paul Kirkham
Status: For Decision**

Police Authority Risk Register March 2010

1 Purpose

- 1.1 To provide Members with the opportunity to review the CPA Risk Register and Action Plan.

2 Recommendations

That Members:

- 2.1 Review the Risk Register (Appendix A) and Action Plan (Appendix B) as part of the assurance role of the panel.
- 2.2 Note the implementation of the CPA Risk Management Policy and Strategy, as well as the role of the Leadership Panel.

3 Reasons

- 3.1. The 2007 CIPFA/APA guidance for Police Authorities "Delivering Good Governance in Local Government Framework" recommends that an effective risk management system be put in place and that decisions be subject to effective scrutiny and the management of risk. It further recommends that the Authority should ensure that risk management is embedded into the culture of the organisation, with members and managers at all levels recognising that risk management is part of their job.

- 3.2. The management of risk within the Force has recently undergone a transformation with extra resources provided and a new *Service Continuity and Risk Management Implementation Programme* well underway. As reported to members at the Panel meeting in September 2009, in order to engender and support a culture of risk management across the Authority and Force, the Chief Executive has established a Joint Risk Management Group that meets monthly. The terms of reference, including membership details, were considered and agreed at your November 2009 meeting. This Group reviews the progress being made with the Force implementation programme and will, amongst other things, facilitate consistency between the Authority and Force Risk registers.
- 3.3. The current version of CPA Risk Register is contained at Appendix A. In due course the CPA Risk Register will migrate onto the new *4Risk* software, alongside the Force Strategic Risk Register and the Service Unit Risk Registers. Due to an extended staff absence, and competing priorities progress on migration is not being achieved to plan.
- 3.4. The Action Plan to mitigate risks is set out at Appendix B for Member review.
- 3.5. Implementation of the Authority's Risk Management Policy and Strategy, which will steer the arrangements for identifying, monitoring and managing risk, is underway. Training has been provided to Members on the 11th May and this has been followed up by a report to the Leadership Panel on its role. From now on the Leadership Panel will consider the CPA Risk Register in detail freeing up the Audit and Internal Control Panel to exercise oversight of the risk management process in the same way as it does for the Force arrangements.

4. **Implications**

Sustainability – Future Management of Risks

- 4.1 The Joint Risk Management Group will meet monthly to assist in the management of risk across both Authority and Force. This will promote the embedding of risk management within integrated business and financial planning processes.

Financial Implications

- 4.2 There are no direct financial implications.

Diversity and Equal Opportunities

- 4.3 There are diversity and equal opportunities implications in that this is an area of business risk that is monitored by the Police Authority.

Risk Management

- 4.4 The ability to identify and manage its risks will enhance the Authority's capability to promote openness and accountability, promote corporate governance and performance improvement.

Human Rights

- 4.5 There are no direct human rights implications in this report.

5 **Conclusions**

- 5.1 This report is part of an ongoing process within both Authority and Force to embed risk management in every aspect of the business.
